Dear Dieter

**Raptors End – Erf 1671 Sedgefield**

We wish to thank you and your team for the excellent job done on the above project.

We found you on the internet – and what a find!

Dieter, working in the Garden Route is a challenge for the most experience home owner/builder. We clicked with our exacting calculations and detail. Your QS function was invaluable. From the tender process to the construction, monthly billing and the final project payment reconciliation.

We knew that we needed itemised costing and billing processes, but we underestimated the value it would provide at the end of the day.

The fees that you charged us saved us ten-fold in protecting the project from Main Contractor overruns.

Thank you so much for your efforts and being an instrumental influence in our project.

You may certainly use our project as a reference for any future work you are pursuing.

We will definitely work with your company again on all of our future projects.

Your high standard of delivery and the friendly attitude of you and your staff, has made this journey a pleasure and a great success.

We look forward to our next project together.

Yours sincerely
